

Welcome to Graph Theory, Fall 2020 version.

Math/CPT 453/553 (yes, it's four separate courses, so there's a wide variety of audience members)

The main conduit for course interaction will be through the Blackboard site and, once there, the "Course Information" page.

Again, as you enter the room, if you could mute your mic to make things a bit less confusing, that would be welcome.

I'll start by looking at the Blackboard site, the Drop Box folder, and what's in there to begin with, including the syllabus.

Pressing "alt=-" will bring up an equation editor box for you to type in:

To get an "north-east pointing arrow" type in " $\nearrow$ " in the equation editor box.
